

## **TRANSPORTATION ELIGIBLE STUDENTS**

School bus service generally will be provided for elementary school students who live more than one mile from school and for secondary school students who live more than two miles from school, unless extenuating circumstances exist limiting the availability of buses or seats available to transport students. When extenuating circumstances exist which limit the availability of buses or seats available to transport students, school bus service generally will be provided, if and to the extent available, for elementary school students who live more than two and one-half (2.5) miles from school and for secondary school students who live more than five (5) miles from school.

In some instances, a student may be transported even though he or she does not qualify under the terms of this policy, if, as determined by the superintendent, or designee, extreme hardship or dangerous conditions justify such an exception, or if the student is a student with disabilities or a homeless student who requires transportation services in accordance with applicable law.
