QUESTION 1:

There may be a couple of proposals on the ballot in November regarding funding for schools. For each one, please indicate if the election was being held today and the following proposal was on the ballot, would you vote yes or no on the following question. Shall Douglas County School District taxes be increased 60 million dollars annually commencing in collection year 2023 and in each year thereafter for general fund purposes, including, but not limited to...

QUESTION 2:

There may be a couple of proposals on the ballot in November regarding funding for schools. For each one, please indicate if the election was being held today and the following proposal was on the ballot, would you vote yes or no on the following question. Shall Douglas County School District taxes be increased 40 million dollars annually commencing in collection year 2023 and in each year thereafter for general fund purposes, including, but not limited to...

QUESTION 7:

And, if voters approve BOTH of these measures, it would raise property taxes by approximately \$295 dollars per year for the average homeowner in the district with a home value of \$559,000 thousand dollars. Knowing that, would you then vote Yes in support of these measures or vote No against them?

And, if voters approve BOTH of these measures, it would raise property taxes by approximately \$295 dollars per year for the average homeowner in the district with a home value of \$559,000 thousand dollars. Knowing that, would you then vote Yes in support of these measures or vote No against them?

And, if voters approve BOTH of these measures, it would raise property taxes by approximately \$176 dollars per year for the average homeowner in the district with a home value of \$559,000 hundred thousand dollars. Knowing that, would you then vote Yes in support of these measures or vote No against them?

Douglas County schools have over a ninety percent graduation rate; offers high school students rigorous academic programs like advanced placement; scores above the state average in tests like the SAT; and offers career and technical education options for students. In order to continue to challenge and provide opportunities for our students, the schools need to retain excellent teachers, provide adequate learning spaces, and update technology.

I am going to read you some reasons some people say we should vote YES in favor of the funding proposals for all Douglas County public schools. After I read each one, please tell me whether that statement is very convincing, somewhat convincing, not too convincing or not at all convincing as a reason to vote YES, IN FAVOR OF these possible school funding measures...

Douglas County schools have over a ninety percent graduation rate; offers high school students rigorous academic programs like advanced placement; scores above the state average in tests like the SAT; and offers career and technical education options for students. In order to continue to challenge and provide opportunities for our students, the schools need to retain excellent teachers, provide adequate learning spaces, and update technology.

I am going to read you some reasons some people say we should vote YES in favor of the funding proposals for all Douglas County public schools. After I read each one, please tell me whether that statement is very convincing, somewhat convincing, not too convincing or not at all convincing as a reason to vote YES, IN FAVOR OF these possible school funding measures...

New communities within the Douglas County School District deserve to have neighborhood schools within their communities just as the school district's older communities have had.

I am going to read you some reasons why some people say they will vote No AGAINST these funding proposals for all Douglas County public schools. After I read each one, please tell me whether that statement is very convincing, somewhat convincing, not too convincing or not at all convincing as a reason to vote NO, AGAINST the issue...

We should not raise taxes at a time of skyrocketing cost of living from groceries to gasoline.

I am going to read you some reasons why some people say they will vote No AGAINST these funding proposals for all Douglas County public schools. After I read each one, please tell me whether that statement is very convincing, somewhat convincing, not too convincing or not at all convincing as a reason to vote NO, AGAINST the issue...

Much of the need for new schools to alleviate crowding is due to growth not paying its way - we need to make developers pay more, not citizens.
